

### REMARKS

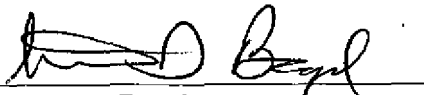

Applicants request acceptance of the foregoing amendments, showing the changes from the claims of US Patent 5,401,305 in the manner set forth in 37 CFR 173(b). These amendments were previously submitted in an Amendment and Response filed August 10, 2009. These amendments place the claims in substantially the form as set forth in the amendment filed January 31, 2007. In the amendment submitted January 31, 2007, in claim 1 at line 3, the phrase "...a first layer of **an** oxide and silicon oxide..." appears. In US Patent 5,401,305, the phrase reads "...a first layer of **tin** oxide and silicon oxide...". The undersigned can find no evidence in the file history of this case showing the formal amendment of "tin" to "an". Accordingly, such amendment is not submitted at this time and the scope of the claims with respect to the "first layer" is commensurate with US Patent 5,401,305.

A Supplemental Declaration for Reissue Patent Application to Correct "Errors" Statement (37CFR 1.175) is filed herewith,. The applicants have incorporated the language suggested by the examiner in the Office action of March 24, 2010. A Consent of Assignee and a Statement Under 37 CFR 3.73(b) was filed on August 10, 2009

In view of the foregoing remarks, applicant respectfully submits that claims 1 -27 of the present application are in condition for allowance and prompt favorable action is solicited.

Respectfully submitted,

Date: April 29, 2010
